Surya Vamshi S

Junior Project Manager | Technical Delivery | Cloud and Linux
Bengaluru, India • +91 9535224687 • suryaa.vammshi@gmail.com
LinkedIn • GitHub

Summary

Co-founder and engineer who delivers technical projects with real users and real deadlines. Took SOCIO, a university event-management platform, from idea to live pilots at 10 events in 8–10 months (**250+ users**, **2,000+ registrations**, **1,500+ QR check-ins**), leading a team of **15 interns** alongside a co-founder. Also student lead for admissions operations for **16,000+ applicants**, managing **100+ volunteers** against a daily plan. I manage scope, timelines and stakeholders, and raise and fix technical risks early. AWS Certified Cloud Practitioner with hands-on Linux experience (Ubuntu, systemd, nginx).

Experience

SOCIOSPHERE PRIVATE LIMITED Nov 2024 – Sept 2026
Product Lead Bengaluru

- Own scope, roadmap and delivery for SOCIO, an event-management platform for universities, co-founded with one other founder; assigned work to and led a team of **15 interns** over one year. Defined each release from **200+ student discovery conversations** held before coding.
- Took the product from idea to live pilot in **8–10 months**, adapting scope across three deliberate stages (student networking, event-registration MVP, institutional event management) as users gave feedback.
- Held regular progress meetings and follow-ups with Christ University management, the pilot's main stakeholder, and turned their needs and those of students, faculty and organizers into a delivery plan: event discovery, registration, multi-stage approvals, QR attendance, notifications and organizer tools.
- Ran pilots at **10 live events** at Christ University: **250+ users**, **2,000+ registrations**, **1,500+ QR scans**.
- Coordinated third-party and institutional dependencies: SMS/notification integrations, Vercel hosting, university domain and servers.
- Identified and mitigated a technical risk at a live pilot, where 10–15 simultaneous QR scans crashed the app: diagnosed the cause and added pagination (50 records per page) in the Next.js/Node.js/Supabase stack, eliminating the crashes and speeding up check-in.

Christ (Deemed to be University) 2024 – 2025
Admissions and Student Welfare roles Bengaluru

- **Student Lead, Admissions Operations (2024):** led operations for **16,000+ applicants**. Joined a planning briefing the day before and again on the morning of each admissions day, then assigned and managed **100+ NCC cadets** across logistics, applicant movement and communication, coordinating with university leadership and several operational teams.
- **Technical Staff Intern, Office of Admissions (2025):** verified data for **1,000+ candidate bank accounts** under tight deadlines through the university's South Indian Bank partnership.
- **Records Manager and Event Sponsorship Manager, Student Welfare Office (Nov 2024 – Jun 2025):** kept student records and helped secure **Rs. 2 lakh** in sponsorship from The Bear House for InBlooms 2025.

Selected Projects

Admissions Workflow Management System
QR-based candidate check-in and interview operations platform

- Built a QR check-in flow with multi-stage checkpoints and SMS/WhatsApp notifications; tested on real academic-year data and demoed to the Admissions Cell (not adopted that year: hardware and logistics constraints).

Nyaya Mitra
AI-enabled civic engagement and legal aid platform

- Designed a web platform with a legal chatbot, NLP document analysis and civic feedback; selected among the **top projects** at Christ University Research Day.

Ubuntu Node Deployment Lab *(GitHub)*

- Built and operated a three-tier service on Ubuntu 24.04 (WSL2): Node app under systemd (auto-restart tested), nginx with HTTPS, PostgreSQL, ufw firewall, nightly backups with a tested restore, and a setup script verified on a clean install; debugged a failed first run and documented it.

Education

CHRIST (Deemed to be University) 2023 – 2026
Bachelor of Computer Applications | ***GPA: 8.0/10*** Bengaluru, India
School: Class 10: 96.94% • Class 12: 76.83%

Leadership & Achievements

- **Certified:** AWS Certified Cloud Practitioner.
- **Winner, Analaiyte 2025** – first among 39 teams after eight elimination rounds.
- **Winner, InsightX'25: The Data Heist** – forensic SQL querying and Python data parsing under competition conditions.
- **Winner, Pitch Your Idea 2025 Grand Finale** – Centre for Artificial Intelligence, Christ University.
- **Vice Chancellor's Commendation**, Christ University – for contributions to university initiatives and student activities.
- **NCC Cadet (Corporal)** – convocation organizing team for **3 consecutive years** (6,000+ graduates a year); led the Sports Day band for 2 years; Student Council member (2025–2026).

Skills

Project Delivery: Scope and Schedule, Risk Identification, Stakeholder Communication, Pilot Planning, KPIs, Agile, User Research
Engineering: TypeScript, JavaScript, React, Next.js, Node.js, SQL, REST APIs, Git
Cloud & Data: AWS, Supabase, PostgreSQL, MySQL, MongoDB, Pandas, NumPy, scikit-learn
Linux: Ubuntu (systemd, nginx, ufw, cron), PostgreSQL, Kali Linux (VMware)
